

Lisa Park — ML Engineer

Experience

ML Engineer at AIStartup, 2022-2024:

- Trained and deployed transformer models for document classification
- Reduced inference latency from 200ms to 45ms using ONNX optimization
- Built automated retraining pipeline processing 500K documents weekly

ML Intern at ResearchLab, Summer 2021:

- Implemented BERT fine-tuning for sentiment analysis
- Achieved 94 percent accuracy on internal benchmark dataset
